

Project ID #: 012008VMS

Due Date for Vendor Quotes: Wednesday, February 27th, 2008 by 15:30 Central time

Send Quotes to: Mark.Headlee@jb.state.ia.us

Vendor Requirements:

- Vendor must have a State of Iowa contract
- A separate itemized price quote, as well as a section total must be included for each section below (Sections 1-4)
- A full project total quote must be provided
- Vendor Questions & Answers will be posted on the Judicial Branch website during the request for quote process

VMware Project Technical Requirements:

Section 1: Four (4) Servers with the following specs:

- Two (2) Quad Core Intel Xeon 5300 or 5400 Series processors, at least 2.33GHz, 1333 or 1600MHz Bus
- 16GB of RAM (Please specify configuration, and number of open slots, if any)
- Two (2) 73GB Hard Drives, at least 10K RPM, SAS, in RAID 1 config (mirrored)
- Remote Management port or card, please specify the name and capabilities of the tool(s)
- Two (2) 1 Gigabit Ethernet interfaces, Intel PCI-Express chipset preferred
- Dual Port 4Gb Fibre Channel HBA, PCI-Express preferred
- Redundant Power Supplies
- Optical Drive, DVD Preferred
- Rack Mount, 2U preferred, specify number of rack slots required
- 24x7x4 Hardware support
- Tested compatibility of all components with VMware VI3.5

Section 2: Four (4) 4Gigabit Fibre Channel Switches with a minimum of 8 active ports

- Include required cables for hookup

Section 3: VMware VI3.5 Enterprise

- Licenses and media for the four servers
- One Virtual Center license and media
- If bundle pricing is available, please quote both the bundle and the individual components.

Section 4: Backup Solution, Licenses and Media

- Specify name of backup solution and provide whitepapers or similar on functionality, especially in VMware environment
- License for Media server including Tape Library (existing One Drive, 16 slot library)
- Licenses for each of the VMware Hosts
- VMware integration and backup without an agent on each VM is required

Please see also Project ID #012008VMB which is for the same project, but using Blade servers. Vendors are invited to provide quotes for both projects; however, only one of the solutions (Blades or Standalones) will be selected
