Prepare Documents
Before initiating a case within the EDMS, it is best to prepare all necessary documents in PDF format.

Create Documents – When creating PDF documents for eFiling, utilize standard fonts (Times New Roman or Arial are the most common).

Document Size – There is a 50 MB limit per document. Multiple documents can be submitted per case. The submission size limit is 150 MB.

Document Format – Any filing requiring a signature must be signed, with either an actual signature, the symbol “/s/”, or a digitized signature per Chapter 16 rules (rules regarding electronic filing). The following information about the person signing the filing, if applicable, must be typewritten or printed under the person’s signature -

/s/Name
Law Firm
Mailing Address
Phone Number
Email Address

Paper Exhibits – Scanning
At times paper documents will need to be included with a case – such as a copy of a contract, a copy of a bounced check, or some other item. These items must be scanned in as an accepted electronic format to eFile them. This can be done utilizing a scanner. Court requirements should be reviewed for information on file size, color, and resolution. Most courts will reject a submission if images are larger than 1 MB per page. Black-and-white scans with the resolution set to 200 dpi create pages that are 25-40 KB in size. Using color adds to the size of the file. Only use color when it is a vital element of the exhibit.
Note! A 100-page document without images or graphs that has been saved in PDF format in black and white will be about 1 MB in size.

Notifications
EDMS Notifications fall into two categories:

1) **Status e-mails** that eFlex generates back to the filer on his/her own filings and
2) **Notification of Electronic Filing or Presentation** (NEF) that the system sends to all parties indexed on the case when something is filed or presented electronically. Call this second category the ‘electronic service’ notifications; they are not send on case initiation, or to filers who don’t have adequate security to see that they were filed.

**Status e-mails**

These go to the filer’s email, not their Notifications page. These can be turned off in the filer’s My Profile page. These will be notifications send when a filing has been received, when a filing has been approved, and when a filing has been returned from the clerk.

**NEFs (Notice of Electronic Filing)**

These are send as e-mail and are also posted to the filer’s account. These will be sent for Service of a document, when a document you filed is being returned by the clerk, and a recinded notice when a party’s filing is returned.

1. Click **Notifications** from the home screen or via the Cases menu.

   ![Screenshot of the Appellate eFile interface showing the Notifications button highlighted]

   **Note!** Next to the notifications button on the home page there will be a number in parentheses (xx). This number represents the number of notifications not accessed and does not include the notifications already accessed.

2. Notifications will be displayed. Those that are not read will appear in bold. Click the **Notification Name** to open the Notice of Electronic Filing (NEF).
Note! Click the Document Name to review the document that was submitted to the case.

Note! Notifications are not permanent. Currently the time limit is set to 90 days, but it can change. The court will determine this time period.

3. The NEF will display. The NEF will also be sent to the registered email account for registered filers.
Note! Check the SPAM filters for the registered email account if NEFs are not received.

Note! Follow the standard paper process whenever necessary to notify parties. The courtesy notifications are not a replacement for the paper notices.

4. To delete notifications, select the checkbox for the NEF and click Delete.

Note! Select Mark as Read or Mark as Unread to change the status of each NEF.
